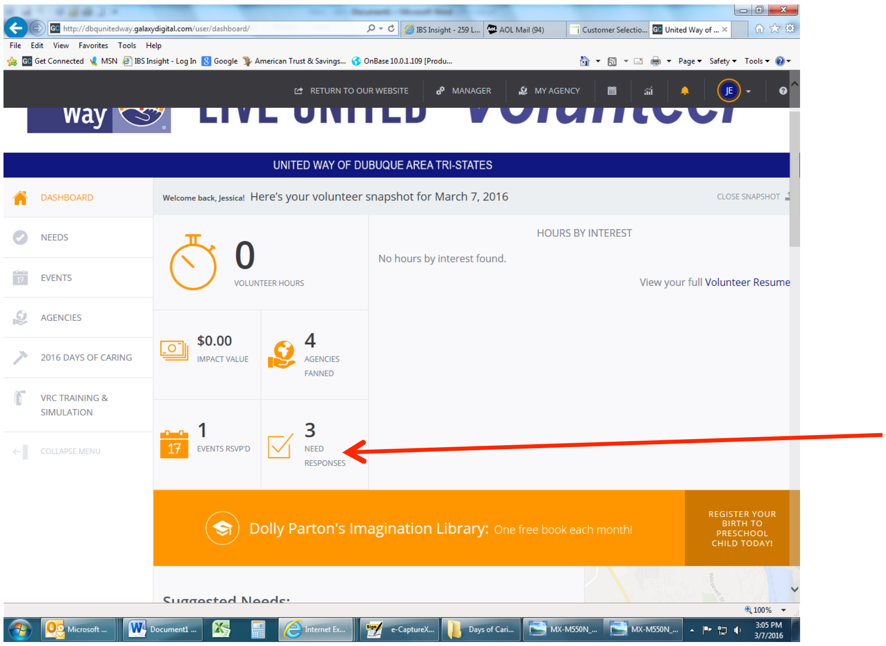
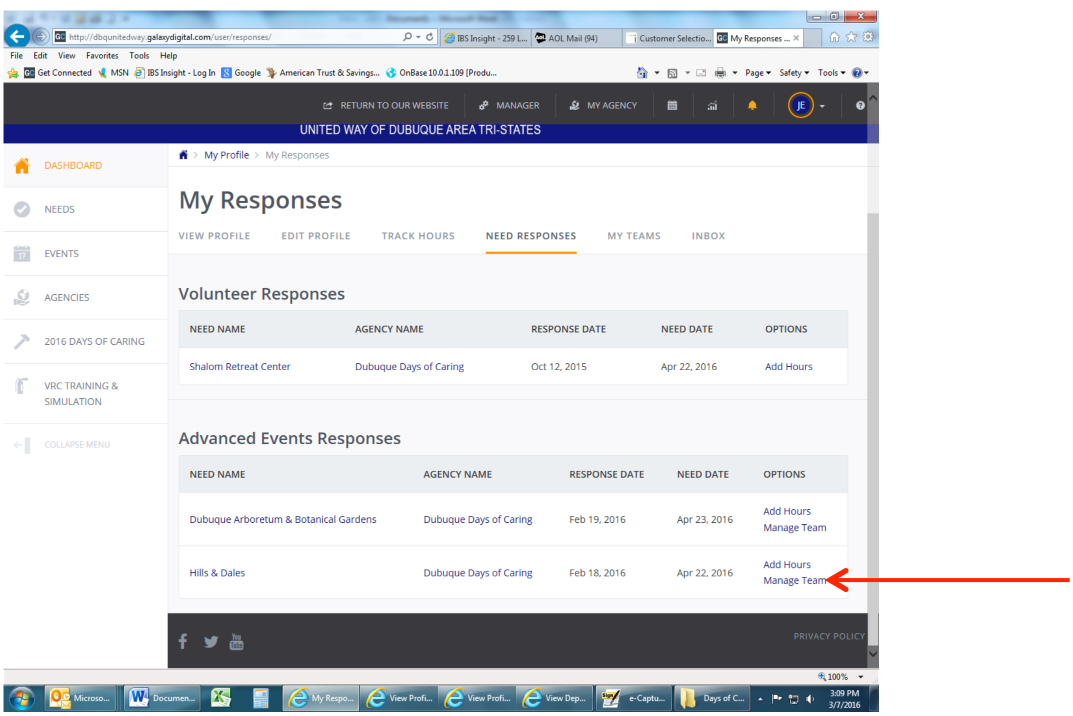
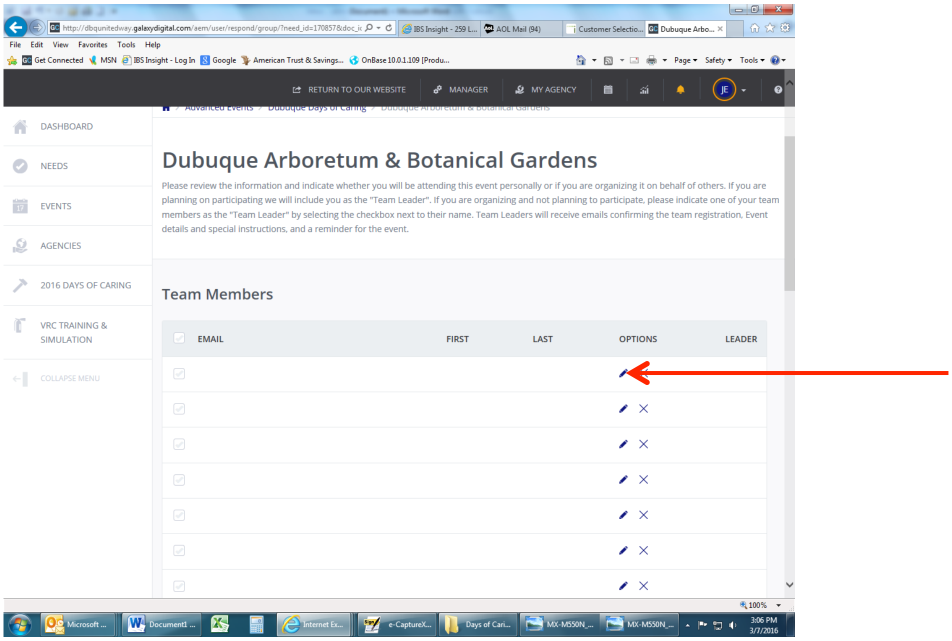
Once logged into Get Connected be sure you are on your Dashboard. Click on Need Responses.



Click Manage Team for the specific project you need to add team info to.



Click the blue pencil next to each team member you need to add/edit. This field will be blank until you enter your team member's name.



Enter the necessary info for each team member and click Update Team at the bottom of the page. You may then repeat this step for each team member until you have all info entered.
